GIS BV Symposium

« *Investments for the Future* »
programme

Achievements, transversality and
future challenges

September 2nd & 3rd, 2014

AMAIZING
SUNRISE
PHENOME
BREEDWHEAT
GENIUS
PEAMUST
RAPSODYN
BFF
AKER

The mission of the GIS BV is to further support the public/private cooperative spirit developed within the Genoplante network and to jointly develop research projects, while expanding the number of public and private partners, in order to reinforce the competitiveness of the French agriculture and the seed and plant breeding industry.

12 years since, GIS BV and before it GIS Genoplante holds a biennial workshop on a large scale. Such seminars gather together the community of scientists (from Private & Public partners) involved in research projects labeled by GIS BV. Following the Call for Proposals “investments for the future”, this 2014 issue focuses on projects Aker, Amaizing, Biomass for the Future, Breedwheat, Genius, PeaMUST, Phenome, Rapsodyn and Sunrise.

The objectives of this seminar are to bring together in a single facility all concerned scientist enrolled in these research programmes, in order to enable them to interact effectively on subjects of mutual interest with a view to develop transverse approaches between such projects and to put forward ideas that capture the imagination of all for the emerging scientific issues.

We deeply thank all those who were involved in the achievement of this programme, which, no doubt, will be another rich source of inspiration for all of us.

Good seminar to everyone.

The GIS BV team.

PROGRAMME

DAY 1 - 09:30am - 05:30pm

09:30am	Welcome coffee
10:00am	Opening <i>François Houllier, president of the Strategic Committee</i>
10:15am	Overview of the projects <i>Alain Charcosset - Judith Burstin - Herman Höfte - Christian Huyghe - Jacques Le Gouis - Nicolas Langlade - Xavier Pinochet - Peter Rogowsky</i>
12:00am	Break
12:15am	Round table on “construction of ideotypes” <i>Arnaud Gauffreteau (Moderator) - Maryse Brancourt - Pierre Casadebaig - Catherine Rameau</i>
01:30pm	Lunch break
02:30pm	Round table on “genotyping” <i>Mathilde Causse (Moderator) - Sébastien Faure - Stéphane Nicolas - Fabien Nogué - Etienne Paux</i>
03:30pm	Round table on “phenotyping” <i>Jacques Le Gouis (Moderator) - Frédéric Baret - Stéphane Lafarge - Nicolas Langlade - Xavier Pinochet</i>
04:30pm	Break
04:45pm	“Photosynthesis for yield improvement” <i>Peter Westhoff, president of the Scientific Advisory Board</i>
05:30pm	Ending

DAY 2 - 09:30am - 05:30pm

09:30am	Round table on “Information systems” <i>Delphine Steinbach (Moderator) - Magalie Leveugle - Pascal Neveu - Nathalie Rivière - Peter Rogowsky</i>
10:30am	Round table on “Genomic selection” <i>Gilles Charmet (Moderator) - Stéphane Boury - Olivier Lucas - Brigitte Mangin</i>
11:30am	Break
11:45am	Round table on “public and societal information and acceptance” <i>Michel Griffon (Moderator) - Grégoire Berthe - Laurence Colinet - Nathalie Pavy</i>
12:45am	Feedback of the Committee of sustainable development of the GIS BV and technological prospective view <i>Michel Griffon, president of the Committee on Sustainable Development</i>
01:15pm	Lunch break
02:15pm	Introduction of DemeTeR-PIA <i>Romain Piovan</i>
02:30pm	Feedback of the Pedagogic Committee of the GIS BV <i>Julie Fiévet</i>
02:45pm	Assessing the Impact of Research Organisations -The French ASIRPA Project <i>Laurence Colinet</i>
03:15pm	Feedback of the Thematic Committees of the GIS BV Abiotic Interactions - <i>Alain Gojon, Sébastien Praud</i> Bioinformatics and Data Management - <i>Nathalie Rivière, Manuel Ruiz</i> Plant Breeding Methods - <i>Mathilde Causse, Olivier Lucas</i> Product Quality and New Uses - <i>Pierre Malvoisin, Luc Saulnier</i>
04:15pm	Break
04:30pm	Feedbacks from the Scientific Advisory Board (SAB) of the GIS BV and discussions <i>Pere Arus - Ian Graham - Rob Snowdon - Roberto Tuberosa - Peter Westhoff</i>
05:30pm	Conclusion and ending <i>Hélène Lucas, chair of the GIS BV Managing Board</i> <i>Pascual Perez, vice-chair of the GIS BV Managing Board</i>
